# OFF THE WALL

Mr. Brent Soffe and his wife visited my little art gallery downstairs in my house in La Mision last week and put a check in my palm for \$500. He bought the little water color shown here. But that's not all folks. In my other palm - smack dab - another \$1010.00 all for the BECA kids to continue their schooling.

We have about 105 from Secundaria through Universidad. What a great donation to our already hugely successful BECA program. There are many scholars in our program who might not be able to continue their education except for the generosity of the kind donors like the Soffes and their family.

The tireless energy and never-ending work by the BECA folks of La Mision needs a pat on the back, also. The Soffes from Utah bought the McInnes house on the Playa. A hearty "Ole!" to them: "Way to Go!", folks. We are all looking forward to making your acquaintance and your generous family too.
